Sex and Gender identity

The next questions are about sex and gender identity. In order for our research to be compared with other studies we have used standard measures similar to the National Census. This information is used to monitor equality between groups of people of different genders and sexes. Equality monitoring helps make sure that everyone is treated fairly and helps identify what services are needed. You can choose not to answer any of the questions. If you feel that there is not an answer that applies to you, there will be a space for you to enter your own response.

Strengths and Difficulties YEAR 9 ONLY

Items

In this part of the survey, you will be asked questions about your emotional strengths and difficulties. Some of these questions may be difficult to answer. For each item, please mark the box for Not True, Somewhat True or Certainly True. It would help us if you answered all items as best you can even if you are not absolutely certain, or the item seems daft! Please give your answers on the basis of how things have been for you over the last six months.

Unusual Experiences YEAR 10 ONLY

Here we ask some questions about some unusual experiences you may have had. It can be quite normal to hear things that other people don't. Sometimes people may have strange beliefs or feel a bit out of touch with reality, this can feel upsetting sometimes, but it is quite common. You can find some services in the BiB resources booklet that might be able to help if any of these questions are upsetting.

Eating Habits

The next questions will ask you about food and whether you are happy with your size and the way you look. Some people can get quite worried about these things, but may find it difficult to speak about them, whereas others will not worry about them at all. It is incredibly valuable to us if you can answer these questions even if this is something that does not give you any concern. It will help us understand what type of support is needed for teenagers, and help local services and organisations to improve things for young people.

Please remember, all of your responses are completely confidential and if you really do not want to answer a question, you can skip it. If anything upsets you, please talk to your teacher or access the information provided at the end of the survey.
