

# Young People's Survey: Module 1

Demographics This survey is part of the Born in Bradford Age of Wonder research project. We will be asking you questions about your demographics. This will take about 10-20 minutes to complete.

You do not have to take part in this questionnaire. You also do not have to answer any questions you don't want to. If you don't want to answer a question, just leave it blank and move on to the next question.

By completing this questionnaire, you are agreeing to us using the information you provide for our research. We will keep your information completely confidential and will not pass on any of the responses to the questions to anyone. We will write reports based on the data we collect but no-one will ever be able to identify you from anything we publish.

If the answers to any of the questions upset you or you would like to talk about anything that is worrying you, please speak to the member of the research team or the teacher that is doing the survey with you.

The study has been reviewed and approved by Bradford Leeds Research Ethics Committee [Ref 21/YH/0261 date 22.12.21]. Research ethics committees think about the study from the point of view of a person taking part and make sure their rights and privacy are fully respected.

**Sex and Gender Identity** The next questions are about sex and gender identity. In order for our research to be compared with other studies we have used standard measures similar to the National Census.

**You can choose not to answer any of the questions. If you feel that there is not an answer that applies to you, there will be a space for you to enter your own response.**

**Your answer helps your local community by allowing charities, organisations, local and central government to understand what services people might need.**

What is your sex?  
(The biological sex on your birth certificate)

- Female  
 Male  
 Do not wish to answer  
 Wish to enter own response

A question about gender identity will follow in the survey. This information is used to monitor equality between groups of people of different sexes. Equality monitoring helps make sure that everyone is treated fairly.
